EMPLOYERS

FIRST CONVENING

ALLIANCE FOR COMMUNITY HEALTH WORKER EMPLOYERS

We invite you to the first convening of the Alliance for Community Health Worker (CHW) Employers. The purpose of the Alliance is to support organizations employing CHWs by providing them with the necessary tools to ensure the infrastructure required to promote the success and sustainability of CHWs.

We are planning an interactive day to learn more about you and your organizations. Meet the consultants for the Alliance, Dr. Dannie Ritchie, MD, MPH, Founder, Community Health Innovations of Rhode Island, and Brady Dunklee, MPH, Independent Community Health Consultant. To help us prepare for the day, we would like to understand your current CHW landscape. Please visit the survey link and answer the questions to the best of your ability, whether you plan to attend the event or not.
